

300-HLD-4700
SEED BOOT HOLDER

This holder has 1-3/4 inch (45 mm) bolt hole spacing. The bolt hole section is designed flat to fit the Bourgault and Ezee-On 47° shanks.

Designed to accept 1-1/8 inch (28 mm) O.D. air hose, for 1-1/4 inch (31 mm) O.D. air hose a bushing 300-BSH-1200 must be used. A self-tapping screw 911-SCR-1051 should be used to hold the air hose or the bushing into the seed boot holder. A 3/8 inch (9 mm) screw 911-SCR-1038 is also available to secure the air hose into the top of the bushing.
